Coconino National Forest Travel Map

Purpose: This Travel Map identifies the roads, trails, and areas designated for public motor vehicle use on Coconino National Forest lands, as well as popular Forest locations and destinations. These motorized travel designations apply only to National Forest System roads, National Forest System trails, and areas on National Forest System lands.

The Travel Map has been designed for use on mobile devices, such as smartphones or tablets.

Road, Trail, and Area Designations: The road, trail, and area designations depicted on this Travel Map are identical to the road, trail, and area designations depicted on the current Coconino National Forest Motor Vehicle Use Map (MVUM). However, this Travel Map is not the official MVUM, and should be considered to be a supplement to, not a substitute for, the MVUM. The MVUM is the final authority should any discrepancies arise between this Travel Map and the MVUM. Obtain a current MVUM at a Coconino National Forest office, or by calling 928-527-3600.

Driving Conditions: Designation of a road, trail, or area should not be interpreted as an invitation to use motor vehicles, or as an implication that the road, trail, or area is passable, actively maintained, or safe for travel. Seasonal weather conditions and natural events may render designated roads, trails, and areas impassable for extended periods. Many designated roads, trails, and areas may be passable only with high-clearance, or all-wheel drive vehicles. Maintenance of designated roads, trails, and areas depends on available resources, and many may receive little, or no, maintenance

Contact Us: Coconino National Forest is interested in hearing from you. If you have concerns about which roads are open or closed, or want to report an issue with a road, or road sign, you can do so by visiting http://go.usa.gov/Qww, or by calling Coconino National Forest at 928-527-3600.

Legend

Point of interest
- Boating site
- Campground
- District office
- Fishing site
- Forest Supervisor's office
- Information site
- Interpretive site
- Motorized trailhead
- Observation site
- Picnic site
- Winter recreation site
- Summit

Road
- Interstate
- State or U.S. highway
- Other public road
- Road open to all vehicles, all year
- Road open to all vehicles, seasonal
- Road open to highway-legal vehicles, all year
- Road open to highway-legal vehicles, seasonal
- Road open to vehicles < 62" wide, seasonal
- Off-Forest road

Trail
- Trail open to all vehicles, all year
- Trail open to motorcycles, all year
- Trail open to vehicles < 62" wide, all year
- Non-motorized Trail (not all trails are labeled)

Motorized dispersed camping corridor
- Both sides of road
- Left side of road
- Right side of road

Area Restrictions
- Camping and Campfire Restrictions
- Camping Restrictions
- Campfire Restrictions
- Cinder Hills OHV area
- Wilderness area
- Major lake or pond
- Major drainage
- Forest boundary
- District boundary
- County boundary
- Hunting unit boundary

Surface ownership
- National Forest
- National Park Service
- Other Federal
- Other Ownership
- State
- Tribal

0 0.5 1 2 3 4 5 Miles

GCS North American Datum 1983

EXPLANATION OF LEGEND ITEMS

Public road:
- Interstate highway
- State or U.S. highway
- Other public road

These symbols are used to show routes the Forest Service does not have jurisdiction over.

Road open to highway-legal vehicles:

These roads are open only to motor vehicles licensed under State law for general operation on all public roads within the state. Roads shown in yellow are open all year. Roads shown in green are open seasonally as described in the "Seasonal Designations" table.

Road open to all vehicles:

These roads are open to all motor vehicles, including smaller off-highway vehicles that may not be licensed for highway use, but not to oversize or overweight vehicles under State traffic law. Roads shown in yellow are open all year. Roads shown in green are open seasonally as described in the "Seasonal Designations" table.

Road or trail open to vehicles less than 62" wide:

These roads or trails are open only to motor vehicles less than 62 inches in width at their widest point. Routes shown in yellow are open all year. Routes shown in green are open seasonally as described in the "Seasonal Designations" table.

Trail open to all vehicles:

These trails are open to all motor vehicles, including both highway-legal and non-highway-legal vehicles. Routes shown in yellow are open all year.

Trail open to motorcycles only:

These trails are open only to motorcycles. Sidecars are not permitted. Routes shown in yellow are open all year.

Motorized dispersed camping corridor:
- Both sides of road
- Left side of road
- Right side of road

These symbols are used, along with a designated road or trail, to indicate limited cross-country motor vehicle use within 300 feet from the edge of that road or trail, solely for the purpose of dispersed camping. The symbols indicate where this activity is permitted. They may be on the left, right, or both sides of the road or trail.

Motorized trailhead:

This symbol indicates a trailhead for access to a motorized trail. Not all motorized trails have trailheads, and those that do may range from primitive to developed.

Area open to cross-country travel:

These are areas on National Forest System land where cross-country travel by motorized vehicles is permitted.

Designated roads are subject to wet weather or winter road closures, or may be temporarily closed due to seasonal conditions, project related work, emergency activities , or firefighting operations . Roads designated on this map area are available for motorized use as depicted except when posted as being unsuitable for use due to wet conditions or other administrative or public safety needs. Winter weather closures generally occur in higher elevations starting with the first substantial snowfall in late December, and can last until mid -April. Please check the Coconino National Forest web page for the latest information about status of roads.

OHV Safety
- Wear a helmet and other protective gear, including eye protection, gloves, long-sleeved shirt, long pants, and over-the-ankles boots.
- Never allow more riders than the OHV was designed for.
- Maintain a safe following distance.
- Drive at an appropriate speed.
- Anticipate rough surfaces and obstacles.
- Make sure that your OHV is in good mechanical condition before riding.
- Stay on designated routes.
- Never ride alone.

Young Riders

- Always supervise children when they are riding.
- Camping areas are not permissible riding areas.
- Riding OHVs in or around campgrounds and dispersed campsites is prohibited. Ride on designated routes only!
- Kids are allowed to ride on routes designated as motorized trails, or on roads designated for "all vehicles".
- Kids under 18 are required to wear USDOT certified helmets while operating OHVs.

Reporting Wildfires or Illegal Activity
- In case of a non-fire emergency, call 911.
- To report a wildfire or an illegal activity, call the Coconino National Forest Dispatch Center at 928-526-0600.
- Provide as much information as possible, including:
  - Your specific location
  - Your contact information
  - Any risks you observe

Camping Rules & Etiquette
- Riding OHVs in developed campgrounds, or in dispersed camping areas, is prohibited. Ride only on designated routes.
- Keep your pets leashed in campgrounds, and under control wherever you are.
- Keep the volume turned down on music and conversation. Many people camp on National Forest System lands to enjoy the peace and quiet.
- Bear-aware
  - Never intentionally feed wildlife.
  - Secure garbage and put food away.
  - Store food and other scented items well away from sleeping areas.
- Roadside camping
  - Park vehicles along the edge of any designated road, and walk to your campsite.
  - Drive up to 300 feet from the edge of a designated "dispersed camping" route to camp, as depicted on this Travel Map.
- Do not build new campfire rings. Use existing ones.
- Keep a clean camp. Clean up all trash, and pack it out when you leave.
- Do not cause damage to vegetation or nearby water sources.
- Do not camp in areas with invasive weeds.

Wildfire restrictions & campfire information
- Campfires are permitted on Coconino National Forest lands unless fire restrictions are in effect. Visit http://www.fs.usda.gov/main/coconino/home for current fire alerts and restrictions.
- Do not leave a campfire unattended until it is completely cold to the touch. Let the fire burn down to a fine ash, then add water and stir until it is cold. If water is not available, use dirt.
- Use existing campfire rings where they already exist.
- Avoid having a campfire when it is very dry or windy.

Recreation opportunities
Visit http://www.fs.usda.gov/recmain/coconino/recreation for more detailed information on the diverse array of recreational opportunities available on Coconino National Forest.

This Travel Map Is Not The Official MVUM
The road, trail, and area designations depicted on this Travel Map are identical to the road, trail, and area designations depicted on the current Coconino National Forest Motor Vehicle Use Map (MVUM). However, this Travel Map is not the official MVUM, and should be considered to be a supplement to, not a substitute for, the MVUM. The MVUM is the final authority should any discrepancies arise between this Travel Map and the MVUM. Obtain a current MVUM at a Coconino National Forest office, or by calling 928-527-3600.

Access Limitations
National Forest System (NFS) lands may be remote. Natural hazards may, or may not, be depicted on this Travel Map, and users should exercise due caution. Medical assistance may not be readily available, and cellular telephones may not work in many areas. Motor vehicle operators should take adequate food, water, first aid supplies, and other equipment appropriate for prevailing conditions and weather.

Designation of a road, trail, or area should not be interpreted as an invitation to use motor vehicles, or as an implication that the road, trail, or area is passable, actively maintained, or safe for travel. Seasonal weather conditions and natural events may render designated roads, trails, and areas impassable for extended periods. Many designated roads, trails, and areas may be passable only with high-clearance or all-wheel drive vehicles. Maintenance of designated roads, trails, and areas depends on available resources, and many may receive little, or no, maintenance.

National Forest System lands, roads, and trails are subject to restrictions on motor vehicle use. Obtain a Motor Vehicle Use Map (MVUM), or inquire at the local Forest Service office for motor vehicle access information. Violations of 36 CFR 261.13 are subject to a fine of up to $5,000, or imprisonment for up to 6 months, or both (18 U.S.C. 3571(e)). This prohibition applies regardless of the presence or absence of signs displaying designations for motor vehicle use. Motor vehicle operators are also responsible for compliance with other applicable federal, state, and local law. The designation, "Road or Trail Open to All Motor Vehicles," does not supersede applicable state traffic law.

Map And Data Disclaimer
This Travel Map and its underlying geospatial data are intended to depict physical features as they generally appear on the ground, and are not intended to be used to determine title, ownership, legal boundaries, legal jurisdiction, including jurisdiction over roads or trails, or access restrictions that may be in place on either public or private land. Obtain permission before entering private lands, and check with appropriate government offices for restrictions that may apply to public lands.

The U.S. Forest Service makes no warranty, expressed or implied, nor assumes any liability or responsibility for the accuracy, reliability, completeness, or utility of these geospatial data, or for the improper or incorrect use of those data. The data are dynamic and may change over time. The user is responsible for verifying the limitations of the geospatial data, and for using the data accordingly.

Nondiscrimination
The U.S. Department of Agriculture (USDA) is an equal opportunity provider, employer, and lender.

Travel Regulations and Restrictions
This Travel Map should be used in conjunction with the current Coconino National Forest MVUM to better understand travel regulations and restrictions.

- **Prohibitions:** It is prohibited to possess or operate a motor vehicle on National Forest System lands other than in accordance with designations shown on the current MVUM (CFR 261.13).
- **Seasonal Restrictions:** Some roads and trails are restricted seasonally to protect wildlife. Routes with a seasonal restriction are depicted using map symbols that are described in the Travel Map's legend. The dates when use is permitted on seasonally restricted routes can be found in the Travel Map's "Seasonal Designations" table.

- **Seasonal or Emergency Administrative Closures:** Designated roads are subject to wet weather or winter road closures, or may be temporarily closed due to seasonal conditions, project related work, emergency activities, or firefighting operations. Roads designated on this map area are available for motorized use as depicted except when posted as being unsuitable for use due to wet conditions or other administrative or public safety needs. Winter weather closures generally occur in higher elevations starting with the first substantial snowfall in late December, and can last until mid -April. Please check the Coconino National Forest web page for the latest information about status of roads. Information about these closures is updated regularly on the Coconino National Forest website at: http://www.fs.usda.gov/main/coconino/home, and signs are posted locally. These closures are consistent with the Travel Management Rule (36 CFR 212.52 (b), 36 CFR 261 Subpart B).
- **OHV Decal:** According to Arizona state law, all OHVs in Arizona must be titled, and must properly display a license plate. The annual purchase of an OHV decal is required to operate OHVs on public and state lands. An Arizona license plate bearing the letters "MC" is required to ensure that your OHV is "street legal". The Arizona Department of Transportation, Motor Vehicle Division (MVD), is the issuing agency for certificates of title, registration, license plates, and the OHV decal. More information on OHV title, registration, licensing, and OHV decal requirements can be found at https://www.azgfd.com/ohv.

  Out-of-state residents may use an out-of-state OHV without an Arizona OHV decal for up to 30 days while in Arizona if the vehicle displays a current decal or registration from the person's home state.
- **Street Legal Vehicles:** Arizona state law permits OHVs to be driven legally on public highways and roads if all registration, license, and equipment requirements have been met. In the context of this Travel Map, street legal OHVs can be driven on roads designated for "highway-legal vehicles only", as well as on roads designated for "all vehicles".
- **Resource Damage:** It is prohibited to operate a motor vehicle on National Forest System lands in a manner that damages or unreasonably disturbs the land, wildlife, or resources (CFR 36 261.12 (h)). There is zero tolerance for destruction of forest resources.

- **Violations and Enforcement:** Forest visitors are required to observe all state, federal, and local laws when on National Forest System lands. Operating a motor vehicle off of the designated system of roads, trails, and areas will result in a fine of $150 for a first offense, $300 for a second offense, and $500 for a third offense (36 CFR 261.13). Violators are subject to a maximum fine of up to $5,000, imprisonment for up to 6 months, or both (18 U.S.C. 3571(e)). The prohibition applies regardless of the presence or absence of signs.
- **Camping:** Motor vehicle use for the purpose of dispersed camping is permitted only on National Forest System lands within 300 feet of the edge of road segments designated for dispersed camping. Visitors may also park along the edge of any road shown on this map, and walk to dispersed campsites at any location on National Forest System lands, except where specifically prohibited. Prohibited locations include those within the city limits of Flagstaff and Sedona, along Oak Creek Canyon, southwest of Kachina Village, near trailheads, and near other developed sites. Visit http://go.usa.gov/cnQaC (case sensitive) for a complete list of prohibited camping locations. Remember to park vehicles just off of the travelled portion of roadways to permit the safe passage of through traffic.

- **Elk Retrieval:** When an elk has been legally taken in Game Management Units 6A, 6B, 7E, 7W, or 8, the individual who legally took the animal may drive, or be driven to, the downed elk. Under no circumstances may a second vehicle be used to retrieve the animal. The vehicle used to retrieve the elk may be operated off of designated routes on non-wilderness National Forest System lands up to one mile from designated routes in areas not closed to motor vehicle use. Motor vehicle use off of designated routes is not allowed for game retrieval of any species, including elk, in Game Management Units 5A, 5BS, 5BN, or 11.
- **Casner Mountain Trail:** Casner Mountain Trail (Trail No. 8) is designate d as a motorized trail with very rugged conditions along a narrow ridge with limited opportunity for two-way traffic. For vehicles < 62" in width, the route is open year-round, and no permit is required; there is room to go around existing gates at each end. For vehicles over 62" in width, free permits are available from the Red Rock Ranger District from mid-May through mid -October each year. No more than one permit will be issued per calendar week.
- **Areas Open To Cross-Country Motorized Use:** The **Cinder Hills OHV Area** is located on the Travel Map's north half, and is the only cross-country motorized use area (all vehicles, year-round) on Coconino National Forest.
- **Road Conditions:** Many designated roads and trails receive no maintenance, and their surfaces may be rough. In fact, many roads and trails may be passable only with high-clearance, or all-wheel-drive vehicles. Roads and trails are not plowed during winter. Drivers should be aware of their vehicle's limitations, and turn back if necessary.

Signage
All system routes are numbered with a route marker sign, but only those routes designated and shown on the Motor Vehicle Use Map (MVUM) and this travel aid are for public motor vehicle use. Routes and areas not shown on this map are considered undesignated roads that are closed to public motor vehicle use even though they may still be marked. These undesignated roads may still be used for administrative, permitted, or emergency access.

In many instances the Forest may use road closed signage such as the examples below to further reinforce motor vehicle rules. Please make sure to always consult the current MVUM or the current travel aid to determine the correct designation of routes and areas.

Seasonal Designations	Dates allowed	Road number
	01/01-08/14	80, 90E, 9466Y
	04/02-12/14	80, 80A, 80B, 80C, 153A, 153E, 800, 801, 635Z, 6352A, 9007N, 9229U, 9230U, 9230W, 9232R, 9460A, 9460T, 9494F, 9495F, 9496F, 9498F, 9499F, 9947
	06/16-11/30	500, 9242, 9244
	06/28-04/14	82, 9116Q, 9116S, 9117A, 9118F, 9118W, 9483G, 9484E, 9484F, 9485E, 9487G
	09/01-01/15	3M
	09/01-02/29	522G, 522H, 522J, 522K
