Thanks Jo. Do you know if someone can request their signature be removed after signing?

Hi Karen,

I cannot login to read the post. Statute requires the language to appear in no less than eight-point type on the face of each petition signature sheet to be circulated. Attached is the application with the language of the 2nd application submitted (they added the language re: June 30, 2026).

True that the only thing they need to say now is that the collection of these signatures will force a vote on SPTP? I assume until it is actually going to be on the ballot they don't have to have the final ballot language and if people want to sign not knowing exactly what they're signing for, shame on them. But I told Linda that I'd double check with the two of you.
Thanks.

Hi Linda and Sean,

I have been reading Joetta's NextDoor posts and it appears that people are being asked to sign the petition without any idea of what the referendum will say and they claim that is legal. Wow--the actual referendum could be on anything if they are gathering signatures without text. Is that correct?

[Joetta Winter](#)

[Uptown Sedona](#)

[Sean](#)

[again, there is NO text. It's just a petition to force the referendum and that will have text when we vote.](#)
